

PRE-RECORDING SETUP

- ✓ Resolution: 1920 × 1080 (16:9 Full HD).
- ✓ Browser Zoom: 100% or 110% for crisp cards & charts.
- ✓ Audio: Quiet environment, clear mic, 120–135 WPM pace.
- ✓ Cursor: Highlight mouse clicks enabled in recording tool.

TAB PRE-LOADING STRATEGY (PRO-TIP)

- ✓ Tab 1: `index.html` (Sign-in & Ecosystem Story)
- ✓ Tab 2: `farmer.html` (Prakash Sonawane · Ask Price)
- ✓ Tab 3: `block.html` (Dindori Cadastral Land Map)
- ✓ Tab 4: `buyer.html` (Fresh Mart Pre-Orders & Bids)
- ✓ Tab 5: `logistics.html` (Fleet Routes) & `storage.html`

TIMELINE	SCENE & PERSONA	TARGET PAGE	KEY DEMONSTRATION FOCUS
0:00 – 0:40	1. Ecosystem Story	<code>index.html</code>	Brand identity, 10s ecosystem animation & 4-phase stepper.
0:40 – 1:15	2. Farmer Portal	<code>farmer.html</code>	Mandi comparison (₹1,880), set ask price (₹2,100), accept live bid.
1:15 – 1:50	3. Block Admin	<code>block.html</code>	GIS Cadastral land map, Gat parcel traceability, task logs.
1:50 – 2:30	4. Institutional Buyer	<code>buyer.html</code>	Pre-orders deployment first, live bidding on excess, escrow tracker.
2:30 – 3:00	5. Logistics Partner	<code>logistics.html</code>	Multi-vehicle fleet listing, scheduled corridor route optimization.
3:00 – 3:25	6. Cold Storage	<code>storage.html</code>	Certified capacity, 2°C temperature telemetry, e-NWR orders.
3:25 – 3:45	7. Investor & Admin	<code>investor.html</code> / <code>admin.html</code>	Fintech yield analytics, returns distribution, central control room.
3:45 – 4:00	8. Vision & Close	<code>index.html</code>	Celebrating farmer animation, tagline: <i>"Let's celebrate agriculture together."</i>

Scene 1: Introduction & The 10-Second Ecosystem Story

0:00 - 0:40

URL: index.html • Sign-in Portal

SCREEN ACTION & VISUAL CUES

1. Center the sign-in card on screen. Hover over the Bhowanee logo and tagline: *"Let's celebrate agriculture together."*
2. Follow the **10-second live animation** on the left panel as it cycles through the 4 stages:
 - Farmer Prakash setting ask price.
 - Truck driving along highway to cold store.
 - Exchange board matching bids.
 - Golden coins streaming to farmer.
3. Point cursor to the **4 synchronized stepper badges** below lighting up in sequence.
4. Click **मराठी**, then **हिन्दी**, then back to **English**.

SPOKEN NARRATION (WORD-FOR-WORD)

"Welcome to Bhowanee — a unified agricultural commerce and fintech ecosystem built to transform India's farming value chain from harvest to escrow settlement."

Right here on our sign-in page, our 10-second live ecosystem animation tells the complete story: Indian farmers setting their own fair prices, GPS-routed fleet pickup, modern cold storage preservation, institutional buyer pre-orders and competitive bidding, and instantaneous 100% direct escrow payouts with zero middleman exploitation.

The platform is built natively for India, featuring instant regional localization in Marathi, Hindi, and English, with secure role-based portals for every participant in the agri-chain."

Scene 2: Farmer Portal — Direct Pricing & Guaranteed Sale

0:40 - 1:15

URL: farmer.html • Farmer: Prakash Sonawane (Dindori, Nashik)

SCREEN ACTION & VISUAL CUES

1. Click **Farmer** on the sign-in page to enter farmer.html.
2. On the **Sell** tab, highlight the lot metadata: **Onion • 12 quintal • Grade A • Gat 118** and today's Mandi reference rate **₹1,880**.
3. Click the **+10** button to raise the price to **₹2,100**, then click **Set my price**.
4. Navigate to the **Offers** tab. Show the real-time bid comparison chart. Click **Accept offer** on the top bid.

SPOKEN NARRATION (WORD-FOR-WORD)

"Let's first enter the Farmer Portal. Meet Prakash Sonawane from Dindori, Nashik. Instead of being forced into distress selling at local mandis, Prakash sees today's mandi reference rate of ₹1,880, but retains full sovereign control over his valuation."

Using an intuitive stepper, he sets his ask price to ₹2,100 per quintal and locks it into the Bhowanee system."

Moving to the Offers tab, Prakash has full transparency into live bids coming from institutional buyers. When a buyer matches his ₹2,100 ask price, he simply clicks Accept. The lot closes instantly, locking the buyer's funds in escrow."

Scene 3: Block Administrator — Cadastral Land Mapping

1:15 – 1:50

URL: block.html • Dindori Block Administration

SCREEN ACTION & VISUAL CUES

1. Switch to **Block administrator** portal.
2. Pan over the interactive **Leaflet Cadastral Map** showcasing color-coded parcels: Gat 118, Gat 123, Gat 125.
3. Click on **Gat 125** (Prakash Sonawane). The side drawer opens.
4. Scroll through the agronomy lifecycle tasks (**Sowing, Irrigation, Fertiliser, Harvest**) and verified input cost sheet.

SPOKEN NARRATION (WORD-FOR-WORD)

"Behind every verified harvest is the Block Administrator. In Dindori, our local administrator oversees agricultural parcels using digitized GIS cadastral mapping.

Admins monitor every farmer's Gat land record, soil moisture telemetry, and sowing schedule. By verifying tasks like irrigation and fertilizer on-site, Bhowanee ensures institutional buyers receive certified Grade-A commodities with 100% land traceability."

Scene 4: Institutional Buyer — Pre-Orders & Live Bidding

1:50 – 2:30

URL: buyer.html • Buyer: Fresh Mart Supply Co

SCREEN ACTION & VISUAL CUES

1. Switch to **Buyer** portal.
2. On **Browse Lots**, point to the KPI cards: **20.0 Qt Available** and **100% Lab Quality Tested**.
3. Show **Demand Planner** and navigate to **Live Bid Board**. Explain that forward pre-orders are fulfilled first; surplus harvest enters the auction.
4. Click **Delivery Tracker** to show the 4-stage pipeline: **1. Farm Gate → 2. Transit → 3. Cold Store → 4. Dock Delivery**.

SPOKEN NARRATION (WORD-FOR-WORD)

"Now let's switch to the Institutional Buyer portal, utilized by FMCG brands, food processors, and large APMC merchants like Fresh Mart Supply Co.

Our buyer workflow solves a major industry problem: Seasonal demand is registered in advance through Forward Pre-Orders. When harvest arrives, verified volumes deploy to advance pre-orders first. Any excess produce then enters the Live Bid Board for real-time competitive bidding.

Once closed, buyers track dock delivery in real time across four verifiable milestones, backed by automated escrow accounts that release payment only upon certified dock weigh-in."

Scene 5: Logistics Partner — Fleet & Route Optimization

2:30 – 3:00

URL: logistics.html • Logistics & Fleet Operations Desk

SCREEN ACTION & VISUAL CUES

1. Switch to **Logistics Partner** portal.
2. Scroll down to show multi-vehicle fleet listing (**Truck 1, Truck 2** , tonnage capacities, and active GPS telemetry).
3. Click **Route Allotment & Schedule**.
4. Highlight the scheduled timeline (**25th Sep Pickup → 30th Delivery**) and the green **Route Optimized** badge.

SPOKEN NARRATION (WORD-FOR-WORD)

"Farm-to-fork reliability requires dedicated supply chain logistics. In the Logistics Partner portal, fleet operators register multiple transport vehicles with verified tonnage capacities.

Bhowanee's route optimization engine groups multi-farm gate pickups into scheduled collection corridors. This minimizes empty transit miles, guarantees prompt farm-gate collection, and prevents post-harvest transit loss."

Scene 6: Storage & Warehouse Partner

3:00 – 3:25

URL: storage.html • Certified Storage Operations

SCREEN ACTION & VISUAL CUES

1. Switch to **Storage & Warehouse** portal.
2. On **My Facilities & Capacity**, show the warehouse card with climate monitoring ( **2°C Optimal**) and capacity utilization bars.
3. Point to the **Physical Verification by Bhowanee** stepper and click **Storage Orders** to display electronic warehouse receipts.

SPOKEN NARRATION (WORD-FOR-WORD)

"To combat crop perishability, our Storage & Warehouse portal allows cold storage operators to list verified holding capacity, humidity zones, and temperature specs.

Facilities undergo physical verification by Bhowanee field auditors. Once verified, warehouses receive automated inbound storage orders, turning harvest into collateralized, grade-preserved inventory."

Scene 7: Investor Analytics & Super Admin Control

3:25 – 3:45

URL: investor.html & admin.html

SCREEN ACTION & VISUAL CUES

1. Open **Investor** portal: scroll through portfolio yield metrics, returns distribution, and risk spreading across blocks.
2. Briefly switch to **Bhowanee team** control room (admin.html) showing overall platform metrics, transaction volume, and escrow balances.

SPOKEN NARRATION (WORD-FOR-WORD)

"For capital partners, the Investor portal offers transparent yield tracking, funding farm inputs and cold chain infrastructure with structured, risk-mitigated returns.

And finally, the Bhowanee Control Room monitors platform-wide contract velocity, escrow balances, and block health in real time."

URL: index.html · Sign-in Return

SCREEN ACTION & VISUAL CUES

- 1. Return to the main sign-in page with the full card in view.
- 2. Let the camera linger on the celebrating farmer animation on the left.
- 3. Hover cursor over the tagline: *"Let's celebrate agriculture together."*

SPOKEN NARRATION (WORD-FOR-WORD)

"By connecting the farmer, the administrator, the buyer, logistics, storage, and investors into a single trusted loop, Bhowanee removes middlemen, guarantees fair value, and brings financial dignity to rural agriculture.

Thank you for watching — let's celebrate agriculture together!"
